# AIR COOLER Desert

*Cool comfort, even in the  
**HOTTEST DESERTS.***

Desert air coolers, also known as evaporative air coolers, are devices used to cool indoor or outdoor spaces by evaporating water into the air. They are especially effective in hot and dry climates, where the humidity is low. The combination of large tank capacity and powerful fan motor allows these sturdy air coolers to throw fresh air all day long. The superior air delivery, powerful air throw, high cooling efficiency, along with low noise make these coolers the best in the segment.

# COMMERCIAL AIR COOLER

**ENGINEERED  
TO COOL**  
LARGE SPACES  
EFFICIENTLY.

## SUITABLE FOR

A commercial air cooler is a large-scale, energy-efficient cooling system designed for use in industrial or commercial environments such as warehouses, factories, restaurants, and offices. These air coolers use the principle of evaporative cooling, where hot air is passed through water-saturated pads, cooling it down before it is circulated through the space.
